

Project:

# NADDERUD STADIUM

**LOCATION:**

Bærum, Norway

**YEAR:**

2023-2026

**CLIENT:**

Backe Stor-Oslo

**SCOPE/PHASE:**

FEED and Detail design

**PROJECT RESPONSIBLE:**

Ehud Bar Mor (ebm@olavolsen.no)

**PROJECT DESCRIPTION:**

The current Nadderud stadium is being partially demolished and transformed to a training pitch, while a new stadium is built for Stabæk football club. The stadium will consist of a main tribune, three smaller tribunes and commercial areas.

The new stadium will be designed for elite football and comply with the governing requirements from UEFA and the Norwegian Football Federation. The stadium will have a capacity of 8000 spectators. Opening is scheduled in 2026.

OO participates in FEED together with the contractor Backe Stor-Oslo and builder, Baerum municipality, and covers all disciplines including project management.
